Usama Aamir

Full stack developer

Lahore 54750

usamaaamirsohail@gmail.com

+92 314 4986692

I am an experienced Full Stack MERN Developer with a blend of technical expertise, creativity, and effective problem-solving skills. Proficient in web development technologies, I excel in building responsive and dynamic user interfaces using React, managing state with Redux, creating scalable server-side applications with Node.js, and implementing TypeScript for code quality. My strong communication and creative problem-solving abilities enhance my adaptability, attention to detail, and teamwork. My career goals include mastering emerging technologies, mentoring junior developers, and eventually taking on leadership roles in web application development. With a track record of diverse projects and expertise in code optimization, I am poised to drive success in any development team

Willing to relocate to: Lahore

Work Experience

Full stack developer

Infostack Tech-Lahore, VA

September 2022 to Present

• I am in charge of the planning, scheduling, budgeting, execution, and delivery of software and web projects.
• They ensure the successful completion of all software projects and also oversee the people performing work on the projects.
• I have experience working in Agile environments, collaborating with cross-functional teams, and communicating technical concepts to non-technical stakeholders. My attention to detail, problem-solving abilities, and ability to quickly learn new technologies make me an asset to any development team.
• Building stable and maintainable codebases using React and Node.
• collaborating with designers to ensure designs were efficient and technically sound.
• creating responsive templates using modern CSS techniques and JavaScript libraries
• creating new Features, functionality, and capabilities on e-commerce sites using JavaScript, Ajax, and JSON.
